The Postgraduate Institute of Humanities and Social Sciences (PGIHS) was established by the Ministry of Higher Education in 2014, by an Ordinance made by the University Grants Commission under Section 24A of the Universities Act No. 16 of 1978 to provide higher education and training and enhance research in the fields of Humanities and Social Sciences. The PGIHS aims to become a centre of excellence in education, research, and creative thinking in the Humanities and Social Sciences and to produce scholars, researchers and professionals committed to the advancement of knowledge through critical and independent thinking with a sense of duty towards society.

The Institute currently conducts (1) Postgraduate Diplomas, (2) Master's degrees by coursework, (3) Master's degrees by coursework and research and (4) Research degrees such as Master of Philosophy and Doctor of Philosophy. The disciplines include: Arabic, Archaeology, Buddhist Studies, Economics/Applied Economics, Education, English, Fine Arts, Geography, Greek and Roman Studies, Hindu Civilization, History, Islamic Studies, Law, Management, Pali, Philosophy, Physical Education, Political Science, Psychology, Sanskrit, Sinhala, Sociology and Tamil. Further, the Institute also offers postgraduate degree programmes in the following inter-disciplinary/ multi-disciplinary/ professional areas: Community Development and Planning, Development Practice, Environmental Management, Human Rights and Multiculturalism, International Relations, Social Work and Sustainable Tourism. The Institute also conducts short-term training programmes to build specific skills of the workforce. These study programmes are conducted by the five Boards of Study of the Institute whilst the overall management and direction occurs at the level of the Board of Management.

In 2022, the student intake into all postgraduate programmes was 874. About 180 well qualified resource persons are involved as visiting teaching and supervisory staff – most of them from the Faculty of Arts. In 2022, 991 students completed their postgraduate programmes at the Institute. We are particularly happy to note that the academic year that began with the intake in December 2021 was successfully completed in December 2022 – despite the many challenges posed by the lingering residual pandemic effect and subsequently by the full impact of the economic crisis. The equipping of classrooms and previous experiences of lecturers in online teaching mode has enabled the smooth transition between online and physical modes when required.

In terms of research output, we note that 14 MPhil and 5 PhD students completed their programmes during the year 2022. The highlight of the year was the Research Congress held in December 2022 conducted in a physical in-person format. This is an opportunity for the Institute's research students to showcase their ongoing or completed work; 65 papers were accepted and presented by mainly postgraduate students of the Institute. We were happy to host Madam Hilde Berg-Hansen, Deputy Head of Mission, Royal Norwegian Embassy in Colombo as the Chief Guest. During the year 2022, the operations of the Internal Quality Assurance Cell (IQAC) were focused on preparation for the Institutional Review (2022–23) and the upcoming Postgraduate Programme Reviews (2023–2027). This involves the ongoing process of systematic collection and filing of relevant documents. This task has been facilitated by the appointment of an IQAC Secretary under the direction of the IQAC Coordinator. During the year 2022, the Institute continued the process of improving its general administrative

operations. The recruitment of additional cadre on contract basis has helped the Institute to distribute administrative and financial responsibilities as specified in job lists and monitoring and checking of effective delivery of assigned jobs and responsibilities. In the year 2022, the Institute continued its collaborations with foreign universities/institutes and local bodies such as ministries, departments and public/private agencies. This includes (1) staff and student mobility to, and book publication under a research collaboration on Human Rights and Multiculturalism with, University of South Eastern Norway, (2) curriculum development for an upcoming Certificate Course, purchase of equipment for teaching, co-organizing a national conference and staff participation in training programmes on Disaster Risk Reduction in a project led by Vrije University, Belgium and involving six other universities, (3) ongoing research on national language policy implementation under the NLEAP project, a joint initiative between the Government of Canada and Government of Sri Lanka, and implemented through the Ministry of Public Affairs, Provincial Councils and Local Government, (4) capacity building and curriculum development on Multi-Level Teaching (MLT) approach in primary education, a joint initiative between UNICEF and the Ministry of Education. The institutional development also included the preparation of action plan based on the corporate plan, the adoption of Senate/Council approved policies, and development of procedures for the smooth operation of the Institute.

Dealing with the non-allocation of any funds from the Treasury for recurrent/capital expenditure for 2023 will be a major challenge. This is in an environment where we experience a lower demand for postgraduate programmes and higher cost of running programmes. Hence generating any excess income over costs will be a challenging task for the Institute under these conditions. The Institute has to prepare and complete the MPhil/PhD Programme Review (in 2023) and coursework MA programmes (in 2024-2027). This will take up considerable time and effort, and prove to be a challenging task, given the lack of academic staff cadre in the Institute. In seeking greater internationalization, we will identify and target selected PG programmes to the overseas market and identify and seek partnering opportunities with overseas universities and agencies for curriculum development, mobility opportunities and research work. We will seek opportunities to partner with overseas universities/faculty staff members in hosting postgraduate students doing research related to Sri Lanka.

In 2022, the Institute experienced delays in several infrastructure related purchases due to the uncertain economic environment causing a severe adverse effect on the procurement processes. Many of these issues are being resolved and we expect that we will be able to complete these purchases in 2023. The financial accounts of the Institute for 2021 received a qualified opinion from the Auditor General's Office. During 2022, the Institute has taken corrective action to directly address the issues raised in the Audit report. We expect that through this process we will be able to regain an unqualified audit opinion for 2022.

The Institute has made solid progress in its administrative and financial management, conduct of programmes, academic and research development, capacity development and in its overall conduct and performance in the last year (2022) in a challenging environment. We expect that the progress achieved so far in the first 7 years of the Institute's operations (since 2015) and the path set forth in its future plans, will help to solidify the position of the Institute as the centre of academic excellence in the fields of Humanities and Social Sciences in the country despite further challenges ahead.

Professor S.J.S de Mel  
Director/ PGIHS

The Postgraduate Institute of Humanities and Social Sciences (PGIHS) is a National Institute established by the Ministry of Higher Education, by an Ordinance made by the University Grants Commission under Section 24A of the Universities Act No. 16 of 1978. The PGIHS aims at becoming a centre of excellence in education, research, and creative thinking in the Humanities and the Social Sciences and to produce scholars committed to the advancement of knowledge through critical and independent thinking with a sense of duty towards society.

In 2017, the Institute prepared its first five-year Corporate Plan setting the platform of the Institute. The Corporate Plan has identified 6 goals to achieve under three key areas of operation. It focuses on the following three key operational areas: Improving quality and standards of teaching and research; Promoting efficiency in administration and financial management; and Strengthening good governance and ethical conduct. The Corporate Plan 2018-2022 plans to implement seventy-eight actions under forty-four strategies and eighteen objectives under the following six goals:

- To Promote a Dynamic Research Culture and an Efficient System for Dissemination of Knowledge;
- To Develop Physical Infrastructure and Service Facilities;
- To Achieve Efficiency in Administration and Sustainability in Financial Management; and
- To Ensure Transparency and Good Governance in all affairs of the Institute.

The successful implementation of the actions of the corporate plan is expected to facilitate the institute becoming the leader in postgraduate education, research and critical thinking in the Humanities and the Social Sciences in the country and a centre of excellence of learning in the region.

The Institute currently conducts the following discipline-wise degree programmes:

Postgraduate Diploma;

Master of Arts;  
Master of Philosophy; and

Master of Education;  
Master of Development Practice;  
Master of Science in Sustainable Tourism;  
Master of Sustainable Tourism;  
Master of International Relations;  
Master of Human Rights and Multiculturalism;  
Master of Social Work;  
Master of Environmental Management.

Postgraduate diploma programme in Community Development and Planning (CDP) was started in 2021 and in 2022 we were able to make an agreement with "Samurdhi Department" and offer this postgraduate diploma programme for the samurdhi students also.

In the later part of the year 2021, the Institute obtained approval from the UGC to offer the Master of Science in Banking degree programme. The Institute plans to commence this programme in 2022. At the beginning of the year 2022, income recognition policy was introduced to increase the income earned by our institute.

The Institute will continue its plans to expand and diversify its postgraduate programmes by widening the access to existing programmes and introducing new programmes within interdisciplinary and a multidisciplinary focus. The Institute will continue the development of new degree programmes as identified in the Corporate plan and as the need arise. It will also engage in conducting new short-term training programmes for the workforce in collaboration with private and public institutions.

## SECTION 3 STUDENT INTAKE

Tables 1-5 give the number of students registered for the postgraduate diploma and degree programmes of the Institute as available at 31<sup>st</sup> December 2022. During the year 2022, the Institute has admitted 874 students for its postgraduate diploma and degree programmes. Compared to the year 2021, the student intake of the Institute has decreased by the percentage of 6.6% in 2022.

Note: \* Postgraduate Diploma in Education (Week-end) and Master of Education programmes was not offered.

In comparison to the year 2021, in the year 2022 also shows that the highest number of students have registered for the postgraduate diploma programmes in all disciplines including in Education and it has mainly contributed to the increase of student intake in the year 2022. The main reason for this increase has been the increase in the number of students enrolled for the Postgraduate Diploma in Education (PGDE). This increase is due to high demand from teacher who works in the Government setter in Sri Lanka.

Comparison with the year 2021, the number of students who admitted for Master of Philosophy degree programme (MPhil) and Doctor of Philosophy (PhD) for the year 2022 has decreased and in the next academic year the PGIHS hope to implement some program for these research

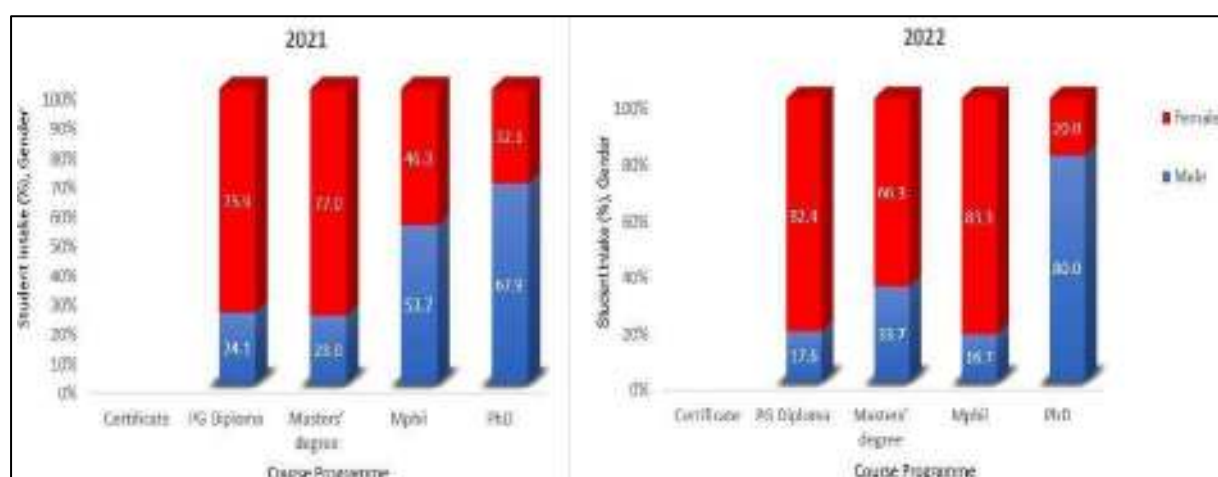

students. According to the figure 1 shows that the percentage distribution of student intake by programmes a significant change totally between the two years 2021 and 2022.

Source: Based on Table 2.

Table 2 and Figure 2 give the student intake by programme and gender for the academic years 2020 to 2022. In the academic year 2022, about 19% of total intake was male and 81% was female. These ratios have changed in 2021 academic year to about 29% and 71% respectively. The increase in female intake was the result of the female teacher enrolment in postgraduate diploma programme in education. In comparison with the years 2020 and 2021, there is decrease in the percentage of enrolment of both genders for other postgraduate courses in 2022 and specially research student enrolment has decreased very high percentage. The fact that the country's economic situation was in a severe crisis during this period had the main effect on the decreased in the student registration.

Table 3 shows that the postgraduate courses offered by the Board of Study and student intake by the board of study, 2021 and 2022.

Long delays encountered in the past in releasing examination results adversely affect the timing of programme completion and thus career progress of students. Since 2018, measures have been taken to reduce the time taken to release results by way of giving examiners clear guidelines and advice. However, the monitoring process should be strengthened to minimize further delays in releasing results.

## SECTION 6 ACADEMIC STAFF

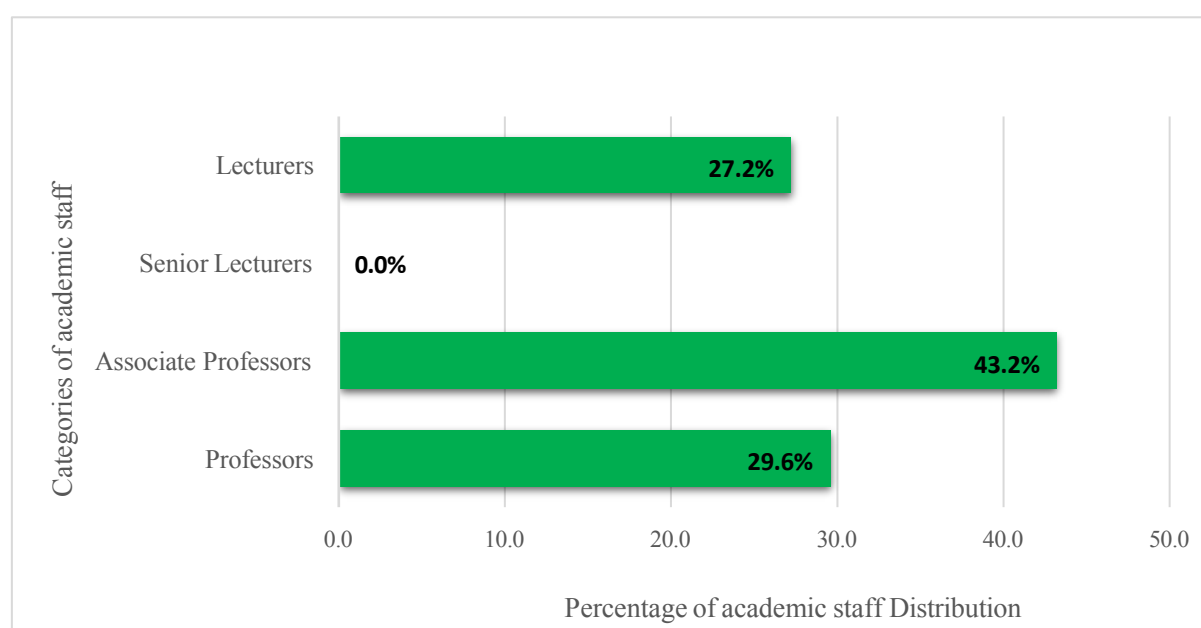

The PGIHS obtained the service of 169 academic staff on visiting basis to offer its degree programmes in 2022. As given in Table 6, this includes 50 Professors, 73 Associate Professors, 00 Senior Lecturers (Gr. I and II), and 56 Lecturers with postgraduate level qualifications. The visiting academic staff are drawn from the Faculty of Arts and other faculties of the University of Peradeniya, other universities in Sri Lanka, research and other higher educational institutes in Sri Lanka and abroad and retired academics. Figure 3 gives the percentage distribution of visiting staff by categories of academic staff. The number of professors engaged in teaching and thesis supervision was about 29.6% of total academic staff involved. Further, academic staff in the grade of Senior Lecturer accounted for 0% of total visiting staff. The rest will be in the category of Lecturer grade with postgraduate level qualifications, especially MPhil or above. Of the total visiting staff 78% are male and 21% are female.

c) University Grants Commission Circular No. 4/2016 dated 1st March

i. Paragraph 4.5

The institution maintains separate books for each study program to record the expenses incurred for each study program and all the expenses are recorded in the respective notebooks. The expenses related to those courses are mentioned in the pages allocated according to the expenditure budget headings given in the budget documents. In this way, the costs related to each course are maintained separately, so it is possible to identify the costs related to those courses and prepare the related financial statements. In the future, the financial statements related to each course will be published at the end of those courses.

ii. Paragraphs 2 and 4.5

Since money is spent when students register for a course, there is a temporary surplus of money in the institution at that time. Since the excess money is maintained in the company's current account, the amount is invested in short-term fixed deposits subject to the approval of the management board.

**2.2.4 That the company's resources have not been used sparingly, efficiently and effectively within the time limits and in accordance with the relevant regulations.**

- a) It is true that 20 employees are working in the company on contract basis. When the number of students entering the institution increases and the institutional work expands, employees should be employed accordingly. Humanities and Social Sciences Postgraduate Institute has identified the new positions required by the institution in accordance with the increasing need and accordingly requests have been made to the University Grants Commission and the Department of Management Services for the approval of permanent staff positions on several occasions. At present, the institution is engaged in the approval of the relevant positions.

However, until the relevant positions are approved and the institute hires permanent staff for those positions, the institute will employ the above employees on contract basis with the approval of the management board of the institute according to the University Grants Commission circular 2016/04.

- b) The work of the contractor who was awarded the contract for widening the side wall and entrance road of the institution was supervised by the Works Department of the University of Peradeniya. The contractor completed a part of the relevant contract and forwarded a bill for that part to the institution on 02 April 2019, which was forwarded by this institution to the works engineer of the university on 06 April 2019. But due to the administrative issues in the university's work department, the evaluation of the work done by the contractor was delayed (until August 01, 2019) and the approval of payment for the additional work was also delayed by many days. Due to these reasons, the payment to the contractor was delayed and the resumption of work on the project was delayed until the contractor made these payments. (Date of approval of payment for additional work done 30 December 2019). Due to these reasons, the respective contract could not be completed on the due date.

However, with the appointment of the new works engineer, the administrative problems in the works department were alleviated and the relevant payments were made to the contractor. The Works Engineer agreed to approve and make payment for the additional work completed by the contractor.

Due to the adverse weather in the country in the year 2020, the work was further delayed and the contractor extended the contractual periods of the relevant agreements and guarantees until February 28, 2022 and resumed the remaining work of the contract and by February 12, 2022, the contractor All the works have been completed and by now the necessary arrangements have been made for the payment of the relevant bills. (Annexure 04)

- c) For the UN4DRR project, in the month of December 2021, Rs. 6,271,361 worth of equipment was purchased and the first knowledge dissemination workshop using the equipment was held on April 7, 2023 and the second workshop is currently planned to be held on April 28, 2023. Also, the first certificate course is scheduled to start in May 2023 have done. Also, the related project coordinator has taken steps to use the relevant equipment

for other undergraduate and postgraduate courses conducted by the Department of Geography.

- d) The NLEAP project was expected to start on January 01, 2022, but due to delay in getting the funds, the project has been started from February 01, 2022. Since this project will be fully implemented as a research project, transportation problems have arisen due to unstable conditions and fuel crisis in the country to go to the research areas to collect data. However, Rs.5,710,701.09 out of Rs.5,874,000.00 have been utilized for the project by the end of the year. Necessary measures have already been taken to extend the period of this project till June 30, 2023, and after the completion of data collection and data analysis, the preparation of the final report is underway.
  
- e) It is true that in the year 2022, there was a decrease of 75% in the number of students enrolled in Master's degree courses, 95% in Master of Philosophy courses and 85% in PhD courses. The reason for this is that although in previous years students were separated in the middle of the year, due to the current situation in the country, the institution had to postpone the admission of students for the year 2022 until January 2023.
